

Finlayson's

TRADE BASE

Dear Valued Customers,

Our businesses remains open and fully operational to service all your timber, hardware and building material needs. We are manufacturing and despatching our products as usual and do not anticipate any impact on our supply capability.

We are making further changes to the way we work at our sites. We have additional health and safety measures in place for our teams, customers and suppliers.

Trade counters have sanitiser at each register or if you'd prefer not to visit in store, our fleet of trucks are ready and waiting.

We have express delivery rates from as low as \$20! Please ask us for further details.

We are closely monitoring government and health service advice in response to the fast-changing Coronavirus (COVID-19) situation.

Our external sales team are still available for site meetings on the basis of strict social distancing and hygiene measures. Each site meeting request will be risk assessed.

Our whole team is here and ready to service your business needs.

Please contact your Trade Sales Team member if you have any further questions.

We will provide you with further updates if the situation changes.

Again, thank you for your continued support.
